Broken Access Control Report

Site: <https://juice-shop.herokuapp.com>

Date: 2025-09-09_00-59-37

Executive Summary This report details the results of a quick scan for Broken Access Control vulnerabilities on <https://juice-shop.herokuapp.com>. The scan utilized a fallback dictionary and quick probes due to the absence of dynamic link discovery. Therefore, the coverage and accuracy are limited. A total of 2 test categories were executed resulting in 15 findings, with 9 identified as potentially vulnerable. It is strongly recommended to enable JavaScript rendering or provide authentication during future scans to improve coverage and reduce false positives.

Executive Summary

This report details the results of a quick scan for Broken Access Control vulnerabilities on <https://juice-shop.herokuapp.com>. The scan utilized a fallback dictionary and quick probes due to the absence of dynamic link discovery. Therefore, the coverage and accuracy are limited. A total of 2 test categories were executed resulting in 15 findings, with 9 identified as potentially vulnerable.

It is strongly recommended to enable JavaScript rendering or provide authentication during future scans to improve coverage and reduce false positives.

Note: No dynamic links discovered; results based on fallback dictionary & quick probes. Consider enabling JavaScript rendering or providing authentication to improve coverage.
