SQL Injection Vulnerability Report localhost\_8082\_sqli\_2025-09-09\_02-11-48

## SQL Injection Vulnerability Report

localhost\_8082\_sqli\_2025-09-09\_02-11-48

### Executive Summary

This report details the results of SQL injection vulnerability testing performed on <http://localhost:8082> on 2025-09-09 at 02:11:48. The testing aimed to identify potential weaknesses that could allow malicious users to interfere with the application's database. While several payloads were tested, none resulted in a successful SQL Injection. Therefore, the application appears to be resistant to basic SQL Injection attacks based on these tests. Further analysis may be necessary to confirm this.

### Report Details

Target: <http://localhost:8082>

Generated: 2025-09-09\_02-11-48
