■ ■ Security Assessment Report

Comprehensive Web Application Security Analysis

■ Scan Details

■ Security Overview

■ Security Recommendations

Implement CSRF Protection

Add CSRF tokens to all state-changing operations, implement SameSite cookie attributes, and validate origin headers.

Regular Security Testing

Schedule regular security assessments, implement automated security testing in your CI/CD pipeline, and stay updated with latest security best practices.

Security Headers

Implement security headers like HSTS, X-Frame-Options, X-Content-Type-Options, and Content Security Policy to enhance overall security posture.

■ Generated by B-Secure Scanner | Report ID: 2025-09-09_11-26-33

This automated security assessment should be complemented with manual security testing.
