Cross-Site Request Forgery (CSRF) Vulnerability Assessment Report

Executive Summary

This report summarizes the results of a CSRF vulnerability assessment performed on juice-shop.herokuapp.com. The assessment, conducted on 2025-09-08 at 00:15:42, tested one action against one vector. The testing revealed no successfully exploited CSRF vulnerabilities. However, an enumeration error was detected during the process.

Report Details

Generated: 2025-09-08 00:15:42 Base URL: <https://juice-shop.herokuapp.com/#> Total Actions Tested: 1 Total Vectors Tested: 1

Overall Status: No CSRF vulnerabilities were successfully exploited during this assessment.

Detailed Results

Recommendations

While no CSRF vulnerabilities were exploited, address the identified enumeration error. Install the recommended parser library (lxml) to ensure proper analysis and reporting of all potential vulnerabilities in future assessments. Continue to regularly assess for CSRF vulnerabilities and implement industry best practices for CSRF protection.
