

# BAC Report - <https://juice-shop.herokuapp.com/#>

bac\_quick\_report

## bac\_quick\_report

### Executive Summary

This report details the findings of a Broken Access Control (BAC) scan performed on <https://juice-shop.herokuapp.com/#> on 2025-09-08. The scan employed a quick probing method using a fallback dictionary due to the lack of dynamic link discovery. Therefore, the results should be considered preliminary and may not represent the full extent of potential vulnerabilities. A total of 2 test types were executed, identifying 15 potential findings, with 9 classified as 'Vulnerable'. Further investigation with JavaScript rendering enabled and authentication provided is highly recommended for a comprehensive assessment.

This report details the findings of a Broken Access Control (BAC) scan performed on <https://juice-shop.herokuapp.com/#> on 2025-09-08.
