SSL/TLS Configuration Report

juice-shop.herokuapp.com_ssl_tls_2025-09-07_18-52-16

juice-shop.herokuapp.com_ssl_tls_2025-09-07_18-52-16

Executive Summary

This report details the SSL/TLS configuration of juice-shop.herokuapp.com as of 2025-09-07. The assessment identified one low-risk finding related to the use of a broad wildcard certificate. Modern TLS protocols (1.2 and 1.3) are supported, while older, insecure versions (1.0 and 1.1) are disabled. The certificate is valid and issued by a reputable authority.
