juice-shop.herokuapp.com SQL Injection Report Date: 2025-09-09_00-59-43

juice-shop.herokuapp.com SQL Injection Report

Date: 2025-09-09_00-59-43

Executive Summary

This report details the SQL injection vulnerability assessment conducted on juice-shop.herokuapp.com on 2025-09-09. The assessment aimed to identify potential SQL injection flaws that could allow unauthorized access to the database. Multiple payloads were tested. While some payloads triggered HTTP 200 responses, none resulted in demonstrable SQL injection exploitations. Therefore the application appears to be resistant to the tested SQL injection vectors.
